

Northern Berkshire Community Resource Guide 2024

It can be hard to know where to start when looking for help for your neighbor or yourself. There is often help available for most situations, finding the right community resource to fit that situation can be much easier with this guide. This guide outlines local resources. These agencies and programs have a common goal of helping people in our community.

This resource guide is brought to you by:

Northern Berkshire Community Coalition
Community Empowerment • Prevention & Wellness

nbCC's Focus of Work:

The Northern Berkshire Community Coalition has been organizing and supporting the Northern Berkshire community since 1986. Our mission is to empower the Northern Berkshire region to enhance the quality of life through our efforts at connecting, convening, and supporting all facets of the community.

Our vision is to be the catalyst for a healthy, empowered, engaged Northern Berkshire community with an emphasis on:

Convening & Connecting Community: *We engage residents and stakeholders in community conversations to resolve local concerns. In addition, we connect residents to local service agencies and provide opportunities for social engagement.*

Health and Wellness: *We help our community make healthy eating and active living the easy choice, as well as create opportunities for access to health and wellness services.*

Leadership Development: *We train adults and youth to be leaders within their community and build capacity to make positive change in our region.*

Substance Use Prevention: *We develop strategies to delay youth alcohol/substance use.*

Family Support and Education: *We provide families within our community with the resources, activities, and group support needed to maintain a strong and resilient family. In addition, we provide workshops and classes for all parents to develop stronger skills to become the best parent they can be for their children.*

Youth Development: *We actively build a positive youth development culture by encouraging youth to grow and realize their full potential. In addition, we also support those who work with youth through networking and training efforts.*

Subsidized rental assistance based on income. Section 8 housing.

Some tenants mistakenly think they are covered by the landlord's insurance policy for the building. The landlord's insurance only protects the physical structure and any of the landlord's possessions. If the tenant does not have renter's insurance and there is damage to the property, the insurance for the building will not cover the tenant's possessions. Every renter's insurance policy is different, so it is important for the tenant to understand their specific policy, including the amount of coverage, as well as what acts and events are covered.
